STRETCH TABLECLOTH (FULLY ENCLOSED)

Size

This template is 100% scale/full size, and must not be re-sized or scaled.

Layers

Design. Must be used to create and supply your design.

Guide. Must not contain any of your design elements. Must be deleted before saving your print-ready file.

Areas & Marks

Bleed line
Artwork must extend to this line. Any space between this line and the safe area lines must only be used as quiet areas.

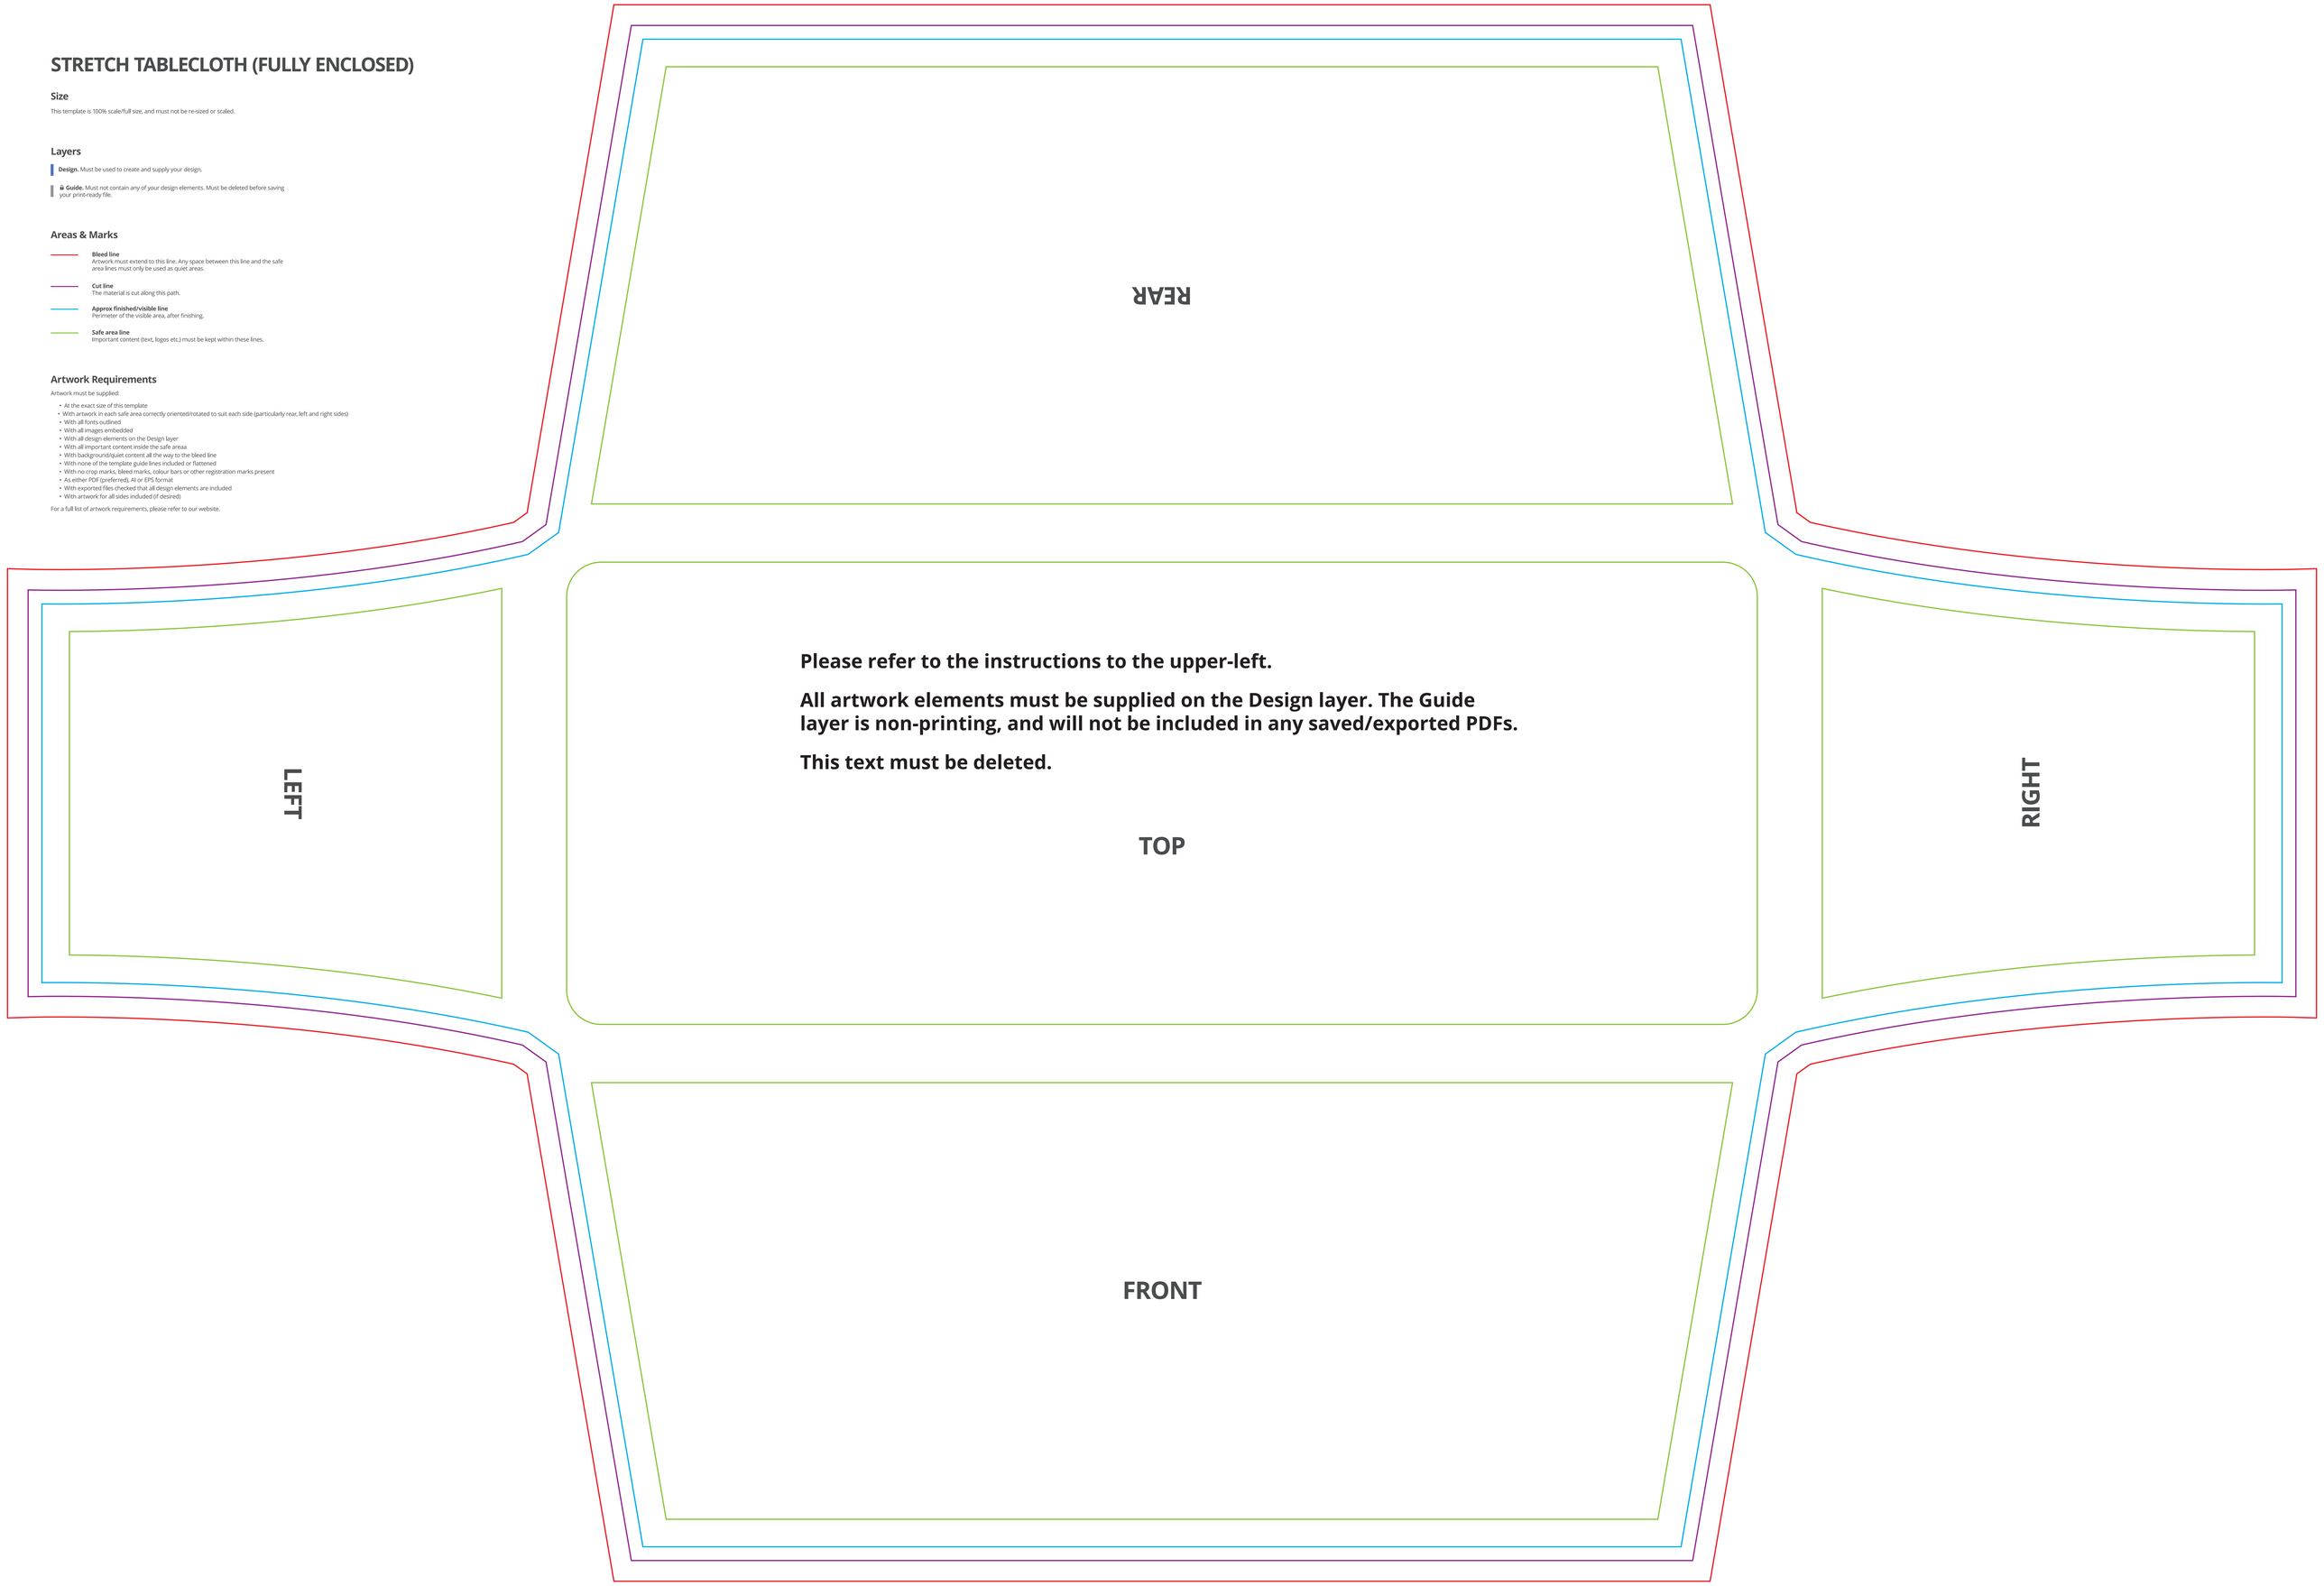
Cut line
The material is cut along this path.

Approx finished/visible line
Perimeter of the visible area, after finishing.

Safe area line
Important content (text, logos etc.) must be kept within these lines.

Artwork Requirements

Artwork must be supplied:

- At the exact size of this template
- With artwork in each safe area correctly oriented/rotated to suit each side (particularly rear, left and right sides)
- With all fonts outlined
- With all images embedded
- With all design elements on the Design layer
- With all important content inside the safe areaa
- With background/quiet content all the way to the bleed line
- With none of the template guide lines included or flattened
- With no crop marks, bleed marks, colour bars or other registration marks present
- As either PDF (preferred), AI or EPS format
- With exported files checked that all design elements are included
- With artwork for all sides included (if desired)


For a full list of artwork requirements, please refer to our website.
